Previous role	Developer at Hayibo
Experience	Retail
Technologies	SQL, React, TypeScript, React Native, JavaScript, Python, Next.js, Tailwind CSS

In my next job it's important that...
The opportunity to grow.
I would like to work on projects that are set to grow with passionate and creative individuals or teams that I could learn from and maybe teach a thing or two.

Work experience

British International College
IGCSE Qualifications

Snippets

Prospera @ prospera-production.up.railway.app

A personal budgeting app that saves user data to a backend and can help with saving goals and forecasting interest

More about me

In my next job it's important that...

The opportunity to grow.
I would like to work on projects that are set to grow with passionate and creative individuals or teams that I could learn from and maybe teach a thing or two.

In 3-5 years I want to be...

A mid-level developer looking forward to contributing towards the company success.

Languages

English, Afrikaans

I like to work with people who...

Are passionate about their field with an open mind to teach, learn and grow.

Interests

Coding (learning new tools and building new things), Sport & Gym (Health and fitness are a large part of my life), Learning (I am always learning new technologies and reading books) and Gaming.
